COMPANY

Reliance Communication

TYPE OF BUSINESS

Commercial Complex

WEBSITE

<http://www.rcom.co.in>

LOCATION

Karaikudi, Madurai

THE RESULTS

Increased security with access control and surveillance

Enhanced precautionary measures against Fire and other hazards

Improved Real time communication and Alerts through Public Address Systems.

COMPANY PROFILE

Reliance Communications has a reliable, high-capacity, integrated (both wireless and wire line) and convergent (voice, data and video) digital network. It is capable of delivering a range of services spanning the entire infocomm (information and communication) value chain, including infrastructure and services — for enterprises as well as individuals, applications, and consulting.

Today, Reliance Communications is revolutionising the way India communicates and networks, truly bringing about a new way of life.

PROBLEM STATEMENT

Increasing Security threats and frequent terror attacks are making Corporate Offices very sensitive and risk-prone. Also fire hazards that damage property and create losses need to be addressed with the adequate systems. Hence the problem statement was to come up with a Solution, which takes care of the security and other building management issues.

BUSINESS CHALLENGES

- Manual Management – Identification, Verification and Authentication of employees for access to office premises
- Manual Data capturing
- Lack of effective security measures
- Lack of movement tracking of employees

COMPANY

Express Towers

TYPE OF BUSINESS

Commercial Complex

WEBSITE

www.expresstowers.in

LOCATION

Nariman Point, Mumbai

THE RESULTS

Increased parking management efficiency with reduced turnaround time at entrance and exit

Enhanced security by precise identification of vehicles entering the premises

Reduced cost on additional security personnel to manage the parking manually

SOLUTION

Rasilant met all challenges to deliver a solution which is smart, effective, cost-concerned as well as easy to use. Some of the highlights are:

- *CCTV cameras at all strategic points to monitor movements*
- *Access control Readers to monitor the access and attendance of employees entering the office.*
- *Fire Alarm System to warn the occupants of any fire occurrence*
- *Public Address System to broadcast messages for evacuation or other general announcements*
- *Integrated Software Platform to monitor, track and generate reports of all the systems.*
